

# *Sensitive* to your Doppler Demands

*Choose the DVM-4300T Transcranial Doppler Volume Flowmeter*

- **Middle cerebral artery monitoring**
- **Diagnostic ratio determinations**
- **Postoperative evaluations**
- **Post-processing waveform analysis**
- **Integrated printer provides fast printing high resolution waveforms for immediate documentation**
- **Large visual real-time LCD - displays waveforms before printing**
- **Automatic gain and baseline control - no manual adjustments are required**

*Bidirectional Doppler  
and Volume Flowmeter  
with Transcranial probe*
